Summary

I am a passionate and experienced mobile engineer with great interest in developing and programming software. 4+ years of experience.

In addition to the usual knowledge of an iOS developer, I have extensive experience in developing frameworks, building ci/cd and cross-platform development.

I participate in a lot of side activities, such as hackatons, startups, open-source development and article publishing.

It's really important for me to actively communicate with my team and participate in decision-making to create an amazing product.

Experience

Senior iOS Engineer

Skyeng

Jul 2021 - Present (11 months +)

Main achievements:

- Successfully launched a new project Skyeng Life - a service with online interactive events with mentors
